DEFENSE

A very frank and sobering look at fighting with a handgun. It's kind of long and starts out like an ad for some kind of stuff, *which is what it is*, but it also presents useful information for folks who make the decision to carry a firearm.

SELLING SURVIVAL: NATIONAL GEOGRAPHIC

National Geographic's television channel [<https://www.nationalgeographic.com/tv/>] produced a television series entitled *Doomsday Preppers* (2012-2014) profiling several individuals, families, neighbors or groups, involved in various stages of emergency preparation. The series is no longer in production, but is available on *NETFLIX* and *YouTube*. (https://www.youtube.com/results?search_query=doomsday+preppers)

The program presented individuals, who were preparing for a variety of reasons, from economic collapse to nuclear war. In this writer's opinion, many of the preparations were misguided, since some of the preppers were focused on only one type of emergency, ignoring all other possibilities.

The following YouTube videos, in 15 parts, present the producers of the Doomsday Prepper series, visiting various trade shows, highlighting the prepper supply and equipment industry, a spin-off series if you will, called "*Selling Survival*."
